

Bay Leather Republic

Nadia

Frame

Solid timber with structural composites. Timber is kiln-dried to prevent warping.

Foundation

Webbing suspension.

Seat Composition

High resilience foam topped with a layer of feather and fibre.

Feet

Timber.

Fabric

Atlantic fabric has been woven to achieve a contemporary look and feel. It is made from a blend of Polyester(84%) and Acrylic(16%) and is available in 4 colours. Blending fibres produces an interesting texture and also makes the fabric more supple, and better to withstand everyday wear and tear.

Leather

Aspen leather is an Italian Full Grain, Aniline dyed leather. Natural characteristics are evident and the hand feel is extremely smooth with a soft and slippery touch. It has been finished with a light oil surface sealer. As the leather is used, it will relax, become softer and

gently change its appearance over time.

Leather Options

Available in Oxford, Ontario, Aspen, Apollo, Orion, Utah, Panama and Columbus leathers.

Fabric Options

Available in Neo, Jupiter, Pluto, Atlantic, Juno and Couture fabrics.

Abrasion - Martindale Testing

All Bay Leather Republic fabrics are tested for general domestic/light commercial use, suitable for most styles of upholstery for general daily domestic use. These fabrics are tested to 15,000 rubs as our minimum requirement.
